Address GEORGE STINSON & CO., Portland, Maine. jy5

LEGAL.

Notice to Creditors of Insolvent.

IN THE COUNTY COURT OF THE COUNty of Mono, State of California.

Ellis A. Friend, vs His Creditors.

Pursuant to an order of the Hon. H. L. Leavitt, Judge of the said County Court, notice is hereby given to all the Creditors of the said Insolvent Ellis A. Friend, to be and appear before the said Judge, in open Court, at the Court Room of said Court, in the County of Mono, on the First day of November, A. D. 1879, at 10 o'clock A. M. of that day, then and there to show cause, if any they can, why the prayer of said insolvent should not be granted, and an assignment of his estate be made, and he be discharged from his debts and liabilities, in pursuance of the Statute in such case made and provided; and in the meantime all proceedings against said insolvent be stayed.

Witness my hand and the seal of said Court, this 25th day of September A. D. 1879.
[L. S] D. JEFFREYS,
s27-td County Clerk.

LONDON ETIQUETTE.

If a dinner party is given in honor of any lady, she it is that must make the first move after dinner in obedience to a bow from her hostess, and she takes precedence over all the other guests in leaving the room, for in London quitting the dinner table is quite as solemn and formal an affair as the going to it. The gentlemen are left at the table to take their wine while the ladies chat and drink tea in the drawing-room. If the dinner is given to no special personage, the question of precedence is settled, as usual, by rank. The knotty point as to what foreign ambassador shall take precedence over any other is settled by given it to the one who has been longest accredited to the Court of St. James. These minute formalities are the bane of social existence in London, so far as American residents are concerned. And an American living in London must perforce visit among the natives if he or she wish for society at all. There is no American colony as at Paris. Such of our people as dwell in England rapidly become affiliated with the English, and many of them become imbued with the peculiar weakness of the nation—namely, snobbery. Some Americans who reside in London shrink from being considered Americans, and strive to to ape the English in all their peculiarities and defects far more than in their finer qualities. But this class of our people abroad is unfortunately not confined to London.

A very onerous peculiarity of English society is its universal custom of feeing the servants at any house at which an entertainment is given. After a dinner party a gentleman will find a liveried servant at his elbow to aid him in putting on his coat. When the customary shilling has been offered and accepted, flunkey No. 1 disappears, and flunkey No. 2 advances with the victim's hat. Another shilling and a retreat, and up comes No. 3 with the guest's umbrella, to be succeeded by No. 4, who rushes out to call a cab or to look after the carriage. At balls the tariff is less severe, as only the functionaries in the dressing rooms claim to be paid. But a visitor at an English country house has his purse well depleted before departing. In that case a half-crown is the smallest that with propriety be tendered, and as all the personnel of the establishment is on hand to wish the departing traveler a good-bye, there are always six or seven at least to claim a fee. So important is this outside source of profit considered by English servants that a very common question to be asked by a footman of his future master, when in treaty for an engagement, is, "Do you entertain much?" An answer in the negative is pretty sure to put a stop to the negotiations.

The visiting hours in London are the same as in Paris—from three to six, and any lady who has any pretentions to mingle in society has her reception-day. Bread and butter, cake, tea and coffee are usually offered to guests on these occasions. As a general rule, ladies dress much less, either to receive or return calls, than they do in Paris, where an elegant toilet for the hostess, and for her visitors is "de rigueur." In fact, English ladies generally dress far less than either the Americans or the Parisians. They are fond of cheap finery, odds and ends put together in a rather startling fashion, of appearing in breakfast-caps or brown undressed kid gloves at grand dinner parties or balls, and such like eccentricities. As in Paris nobody ever wears handsome dresses while walking. Of late there has come up among a certain set in London a fashion of so called artistic dressing, with results dreadful to contemplate.

DEATH IS BIRTH.—No man who is fit to live need fear to die. Poor faithless souls that we are! How we shall smile at our vain alarm when the worst has happened! To us Death is the most terrible word we know. But, when we have tasted its reality, it will mean to us birth, deliverance, a new creation of ourselves. It will be what health is to man. It will be what home is to the exile. It will be what the loved one gives back is to the bereaved. As we draw near to it a solemn gladness should fill our hearts. It is God's great morning lighting up the sky. Our fears are the terrors of children in the night. The night, with its terrors, its darkness. Its feverish dream is passing away, and when we awake it will be into God's sunlight.

A prosy, tedious Congressman said to Henry Clay: "You speak, sir, for the present generation, but I speak for posterity." "Yes," replied Clay, "and it seems you are resolved to speak until your audience arrives."

A miss is not only good as a mile, but one lap better.

The Cause and Cure of Fainting.

[New York Times.]

Fainting is so common with some persons, particularly women, and the cause of it is so little understood by non-professional people, that some knowledge of the subject often proves valuable. Faintness consists in a temporary failure of the activity of the heart, the blood not being properly circulated in consequence. Although it does not reach the head, the sufferer loses all clearness of vision, and, if not prevented, may fall, the fall not unfrequently restoring the normal condition. There is no convulsion, and though he—more probably she—can hardly be called conscious, he is not so profoundly unconscious as to be incapable of arousal, as happens in epilepsy. There are all degrees of faintness, from merely feeling faint and looking somewhat pale to positive and complete swooning. In some cases, one faint is no sooner cured than another and another succeed, hour after hour, even day after day. It is scarcely necessary to say that such cases are serious and need prompt treatment.—The causes are various. Some persons are so easily effected that they swoon if they cut their fingers or see any one bleed. Their defect is oversensitive nerves and weak muscular fibre. The heart is essentially a muscle, which is feeble in some, strong in others—feeble generally in women and strong in men. Whatever weakens the heart and muscles commonly produces faintness; close, foul air being an active cause.—Whatever greatly affects the nerves, such as bad news, or the sight of the disagreeable or horrible, may induce a swoon; and loss of blood another and serious incitement. Sound health, naturally accompanied by firm nerves and muscles, is the best preventive of faintness. The majority of vigorous men go through all kinds of severe and painful experiments without fainting, while delicate men and women swoon at trifles. American women who used to faint continually—in crowds, at bad news, at scenes of distress—now faint comparatively seldom; and the fact is ascribed to their relinquishment, for the most part, of the habit of lacing, to their increased exercises in the open air, and their better physical condition. Not one American woman faints to day where thirty years ago, twenty-five women fainted, and the diminution of the disorder, always the result of direct causes, is an unmistakable evidence, which other things corroborate, of the marked amelioration of the health of the highly organized, extremely sensitive, but flexible and enduring women of our complex race.

The story comes from Hartford of a penurious farmer, who has had three wives. It is stated that he ordered off his farm a sister of No. 1 because she ate too many eggs. No. 2 had been his servant girl, and refused to work longer at low wages. On the way to the depot he said: "Will you stay if I will marry you?" "Yes," she answered, and it is said to have chuckled over his cheap bargain, as she was a hard worker. No. 3, who was wooed when No. 2 died, was a widow and dress-maker, who owned considerable money. By a State law a husband is responsible for his wife's debts contracted before marriage, so to avoid paying these, as soon as he was engaged, kept the news quiet until he had bought up all the claims against his intended at 20 cents on the dollar.

General Sherman addressed some Ohio school children the other day upon the horrors of war. He said: "You may think, children, when you read about us war men, that we like battles and fighting. It isn't so. Most of us hate it. So far as I am concerned, I have been engaged in wars and with business connected with war for forty years, and I hate it with a deep and growing hatred."

The St. Louis *Times* says: "It is fashionable to ridicule women because they are afraid of mice, and yet we say unto young men contemplating matrimony, beware of the woman who isn't afraid of a mouse; such women are dangerous."

There is nothing that will convince a man so quick that Winter is fast approaching, as to pass a drug store, and find the window crammed full of chest protectors.

Charity does not cry aloud in the streets, but it goes quietly around and ties up the wound and fills up the larder.

The ebb and flow of the tied refers only to married men, who go out early and come in late.

When people are killed by an overdose of opiates isn't it laudanum to the skies.

THE CHRONICLE.

BODIE, NOVEMBER 1, 1879.

County Official Press.

SAN FRANCISCO AGENCY.—I. P. Fisher, 23 Merchants' Exchange, is our Agent, and is authorized to contract for advertising, receive subscriptions and make collections on our account.

HEALTH OF BODIE.

The papers of this coast, and we may say, of the whole country, have been teeming with squibs in regard to the unhealthiness of Bodie, and much has been said regarding the impurity of our water and the filthiness of our streets as being the cause of so much sickness here. These slanders on our town have been born from the foolish twaddle of the daily papers of Bodie, which when items were scarce fell back on the old stand-by "sickness," "pneumonia," etc., until they have almost made our people think—and have made the outside world believe that Bodie is the unhealthiest place in Christendom. Admitting that we have had many cases of pneumonia, many of them having proved fatal, we deny most emphatically that it is an unhealthy town to those who take ordinary care of themselves. As to our dirty streets and well water having anything to do with the sickness of Bodie, we pronounce it a no such thing. If such were the case we would have fevers, dysentery, and such like ailments, but we have none of them. If sickness has been brought on through the agency of dirty streets and bad water why is it that the sickness and mortality has not been great among the women and children, who stay at home and take in at every breath all the noxious vapors from the streets, and drink the water from our wells? The women and children and not the men drink the water that is said to be so unhealthy, and not fit for use, and the same dear creatures are the healthiest of our people. If we have had any cases of dysentery, etc., they have mostly been brought on through the eating of green fruit, picked a week or ten days before reaching our town. The mortality has been from pneumonia—in many cases brought on by undue exposure and through a too free use of ardent spirits. We do not deny that many temperate men have been down with the pneumonia, but as a general thing they get through all right. Some of those who have died have disobeyed the explicit directions of their doctors and taken their lives in their own hands. We do say, that with ordinary care of a cold when first contracted, and a dispensing with the use of liquor, and keeping within doors at night no one will need fear an attack of pneumonia. And we also say that Bodie is *not* an unhealthy place, as our robust women and children can testify. So please, exchanges, let up on Bodie's "unhealthiness," and when you see any such items in our dailies make up your minds that "items" are very scarce. It must be remembered that Bodie is a place of some 6,000 or 7,000 people, many of whom have no regular abiding place, and are necessarily more or less exposed, and it is not strange that pneumonia brought on by such exposures should be prevalent, but for those who are not liable to such exposures; who have comfortable homes and firesides, and take ordinary care of themselves, there is no healthier place than Bodie. If men will go into saloons and drink hot drinks, and then go out into the cold and visit other saloons and repeat the hot drink programme, nine out of ten will get cold and easily succumb to an attack of pneumonia. The health of the women and children of a town is a good standpoint from which to judge of the general healthiness of a locality, and from such a standpoint, and no other, are we willing to have the health of Bodie judged. It is a matter of record that during the past two years only six children and three women have died from natural causes, and one of the latter was from excessive drinking.

General Grant had a fitting reception at Virginia City on Monday, and after visiting the mines and Sutro tunnel, he bid adieu to this section of our Union and on Wednesday went East with the good wishes of the people of this coast for a safe and pleasant trip.

A murder trial came to a sudden stop a few days ago at Frederick, Md. The Judge discharged the jury, who had been permitted to visit a barber shop, and had a general discussion of the case with the barber.

A little boy recently found a beautiful pearl in a mussel near Waynesville, O. It was sent to New York and sold to Tiffany & Co. for $350. It weighed six carats.

Ed Malone, who is said to hail from Bodie was shot at Cheyanne on Wednesday, by Charles Boulter.

Bing Williams, the prize fighter, formerly of Virginia City, died at Tuscarora on Friday night of last week.

The thermometer reached 122 degrees in the shade last Sunday at Napa City.

GO SLOW!—The Governor and leading citizens of Colorado affirm that the Indians must be removed from that State or be exterminated by that State, if not by the Federal forces. Confidence, they say, can never be restored, and it is only a question whether the result be attained at once or by slow and tedious warfares. Governor Pitkin is too rash, when he talks of exterminating the noble red man. What would thousands of his fellow citizens do to make business, if they could not scare up an Indian war, now and then? The Utes will soon surrender, and then they will be sent to comfortable quarters for the Winter, fed on roast beef and plum pudding, and in the Spring be furnished with Henry rifles and red blankets, and then sent out to hunt—men, women and children. Would it not be well to exterminate the white Indians that inaugurate these Indian wars.

THE FASTEST TIME YET.—The New York *World* of October 7th says: "It is rumored that John Murphy drove Rarus a mile on Mr. Robert Bonner's track, near Tarrytown, on Saturday, in 2:11½; that each of the first three quarters were trotted in 33 seconds and that the last quarter was trotted in 32½ seconds. After which, Mr. Alley Bonner drove Edwin Forest a mile in exactly the same time. The two horses are to be driven as a team shortly.

NEW TO-DAY.

OBSEQUIES OF WILLIAM S. BODEY,

Under the Auspices of the

PACIFIC COAST PIONEERS OF BODIE.

LEGAL.

SHERIFF'S SALE.

BY VIRTUE OF AN EXECUTION, ISSUed out of District Court of the Sixteenth Judicial District, in and for the County of Mono, State of California, dated the 26th day of September, 1879, in a certain action wherein Page, Wheaton & Co., as Plaintiff, recovered judgment against Kennith McSween and the firm of George Radley, as Defendants, for the sum of Twelve hundred and ninety-six 82-100 dollars debt, with interest on said sum of $1,296 82, from the 26th day of September, 1879, at the rate of seven per cent. per annum, together with forty dollars costs of suit, and all accruing costs, on the 3d day of October, 1879, I have levied on the following described real property of defendants, to wit: That certain wood ranch situated in Mono county, California, lying and being situate about 9 miles in a southwesterly direction from the Mormon Ranch, and about three miles in a southerly direction from Castle Peak, and in a westerly direction from Mono Lake, and adjoining the wood ranch of Frank Doten, and containing 160 acres, more or less, together with the appurtenances and improvements thereto belonging. Notice is hereby given that on

FRIDAY, the 31st day of OCTOBER, 1879,

at One (1) o'clock, P. M. of that day, in Bridgeport, County of Mono, State of California, I will sell all the right, title and interest of said Kennith McSween and the firm of George Radley, or so much thereof as will satisfy Plaintiffs' demand, in and to the above described property, at public auction, for cash U. S. gold coin, to the highest and best bidder, to satisfy said execution and all costs.

Dated at Bodie, Mono county, California, the 6th day of October, 1879.

P. B. TAYLOR, Sheriff.
By JNO. M. MASSEY, Deputy Sheriff. o11-tf

JOB PRINTING.—Job printing of the finest descriptions will be furnished at this office at Sacramento prices.

LOCAL INTELLIGENCE.

THE REMAINS OF W. S. BODEY.—On Sunday last Judge McClinton and Jos. Wasson went to the grave of W. S. Bodey and commenced exhuming the remains of the pioneer whose name is bestowed upon the town of Bodie. The remains having been discovered, operations were suspended until the following day, when, in presence of several citizens, they were removed and brought to town. The much mooted question as to location of the grave has thus been settled. There were found the skull, a few bones, necktie, Bowie knife, shoe, button, blanket and cloth. Body lost his life in November, 1859, being exhausted, close to his cabin, during a heavy snowstorm. His body was found the following Spring and buried where he fell. His remains will be re-interred to morrow afternoon at 3 o'clock, under the auspices of the Pacific Coast Pioneers of Bodie. A general invitationis extended to citizens to attend.

Sylvanus B. Cobb, of this city, informs us that he was a partner of the deceased pioneer from the Fall of 1857 until the early part of 1859, and that his name was William S. Bodey—not Body—and that he was a very fine man, temperate in his habits, and very neat in his personal appearance, in fact, uncommonly so. He was about 5 feet 6 inches in hight, light complexioned, with hair and whiskers very gray, and aged about 45 years. Mr. Bodey's family to which he was much attached, resided in Poughkeepsie, N. Y., where he had a daughter aged 19 years, graduate, and a boy, 17 years of age, was preparing to enter college. Mr. Cobb was Bodey's partner until he started for Bodie and he says he would never wish to have a better man for a partner.

PIONEERS.—At a meeting of the Pacific Coast Pioneers, on Wednesday evening last, I. G. Messic, Dr. Davison, R. Folger, J. Lehigh, P. N. Snyder, Lee McKinstry and Joseph Wasson were appointed a committee of arrangement, in accordance with a resolution to inter the remains of W. S Bodey under the auspices of the Society. It was decided that the obsequies take place on next Sunday afternoon at 3 o'clock. Dr. Davison presented the Society the knife of Body.

Joseph Wasson was requested to furnish an obituary of Bodey, to be spread upon the minutes. Thomas Buckley, Francis Ranken and Joseph Alcaraz were elected members. The Committee selected R. D. Ferguson to deliver an address at the grave of Bodey.

TO TAXPAYERS.—In another column Tax Collector Taylor gives notice that the taxes are due, and that for the accommodation of taxpayers he will be at the following places on the days mentioned: Mammoth City, November 10th and 11th, Benton, 13th; Coleville, 24th and 25th; Bodie, December 20th, 22d, 23d and 24th; and at Bridgeport daily.

NEW ADVERTISEMENTS.—Under "New To-Day" will be found the advertisements of

Union Market, Charles Kilgore; Can Can Restaurant, George Callahan; Tax Collector's Notice; Hoisting Rigs, L Chalmers, Silver Mountain, Alpine county; Pioneers' Meeting, School Tax Notice, and Obsequies of W. S. Bodey.

UNION MARKET.—Charles Kilgore, formerly of the Mountain House, on the Aurora and Carson road, has opened the Union Market in his new two-story building next south of the Postoffice, and is now prepared to serve the public with everything in the line of fresh meats, hams, bacon, etc. See his advertisement under "New To-day.

ANOTHER STRETCH.—On Monday last another section of about fourteen feet of the Standard Mill cable was cut out, making 54 feet cut out since the cable was put up early last Spring. If it keeps on stretching at this rate the Company will have a duplicate cable to start another tramway with.

AIRISH.—The *News* sneers at our hand press. To be sure we have not a cylinder, but we present a neater appearance than our cotemporary, and what is better, our press and material are paid for.

LIBERAL.—H. Ward has donated the plat, 15 by 15 feet, for the grave of Bodey, the use of the hearse, and expense of digging the grave. This generosity is worthy of note.

AMPUTATED.—Wm. Farragher, who was accidentally shot in the knee, at Mill Creek, a few days since, had his leg amputated above the knee by Dr. Deal. He is doing well.

WATER SUPPLY.

To-day the bids for building a reservoir on the "hill" and laying pipe to to supply water for the extinguishment of fires in our town will be opened, and probably a contract let, by the Bodie Water Company, a sufficient amount having been subscribed to warrant the Company in pushing the good work to a speedy completion. When the contemplated supply is furnished our city will be as well protected against the devouring element as is any place of its size in the State. With two hose carts, each with from 500 to 750 feet of hose, and about 1,000 feet of spare hose in case of an emergency, no fire could get under any headway. The day that sees the completion of this important work will be a memorable one to Bodie, as it will abolish the slavery we are squirming under—the fetters that bind us to the insurance companies of San Francisco and the East would be sundered, and we freed from an onerous bondage; and thousands of dollars will be kept within the confines of Bodie that now go to those companies. There is ample time to do the required work before the Winter fairly sets in if the contract is let to energetic parties—as it undoubtedly will be. Next to the extinguishment of fires, the extinguishment of the dust on our streets, and which has made life in Bodie almost unendurable, is no small item in itself, and this alone should make the average Bodieite daily offer up a prayer for the speedy consummation of the good work.

ANOTHER MISTAKE.—The *News* of Tuesday in a stereotyped attack on the Board of Supervisors says:

"During the administration of Patterson, the Sheriff whose death occurred some year or so ago, it was generally known that a deficiency existed in the accounts of his office. The amount of deficit was in the neighborhood of $3,000, and, to the knowledge of the oldest resident that sum should still be on the wrong side of the ledger."

The above is another fair specimen to what a length the editor of that paper allows his spleen to carry him. It is a shameful attack upon the memory of as good and honorable man as ever lived in any community, and it has caused a feeling of indignation among his friends and that of his worthy family, who feel the indignity very keenly. The truth is just this: Sheriff Patterson died suddenly, and his accounts showed he owed the county $300—of this amount $120 consisted of licenses which were returned, thus leaving him in debt the insignificant sum of $180! Had he not died suddenly he would have settled every cent. Sheriff Patterson is said to have been very particular in regard to his settlements and was a very honorable, conscientious man in all his business transactions. The bondsmen are ready to pay the amount of $180 which is all there is due the county of Mono—and not $3,000, as our cotem. flippantly asserts. We advise our morning friend to be more careful in its assertions affecting the character of honorable people, or it may have more libel suits on hand.

THE SCHOOL HOUSE.—The School House will be finished next week, and will be a credit to our city. The old building was moved back and the new addition has been built across the front of the lot on Green street. The new portion is divided by sliding doors into two rooms, each 26x30 feet, with a small room off of each through which the children enter the school rooms. These rooms will be used as cap and cloak rooms. The building rests on a stone foundation and is well and substantially built. The Trustees have been faithful to their trust in providing so well for the accommodation of the rising generation. The School will open about the 1st of December with Mrs. Aubrey as principal.

TO MINE OWNERS.—The attention of mine owners is called to the advertisement under "New To-day," of hoisting works, mining pumps, steel cable, etc. offered for sale by an English Company at Silver Mountain, Alpine county. These are new works, but little used and our mine owners are here offered a fine lot of machinery for a song, the company having no further use for them—in fact some of the articles advertised were never used and are as good as when first purchased by that company. Those wishing information in regard to this matter may inquire at the CHRONICLE office.

FATAL ACCIDENT.—About 10 o'clock on Sunday morning last, Almon Park, a miner at the Blackhawk, fell down the winze from the 320 level in that mine and was instantly killed, having fallen a distance of about 60 feet. It is supposed that foul air was the immediate cause of his fall. He was about 32 years old and leaves a wife and child. He was a native of Illinois.

A PIONEER GONE.—Barna McKenna, one of the early pioneers of Mono county in the placer mines of Monoville, in 1861-2, died at Bridgeport on Sunday last. The deceased was highly respected by all enjoying his acquaintance. He was a brother of J. P. McKenna, of San Francisco. Mr. McKenna left a widow and one child.

SCHOOL TAX.—Will be delinquent on December 2d. See advertisement of Collector.

THE BODIE MINES.

SPAULDING.
W. A. Searles, Sup't.

A contract has been closed by the Spaulding Company with John N. Risdon, of the Risdon Iron Works, San Francisco, for the immediate erection of a ten-stamp quartz mill. The mill is to be furnished with steel bottom and be first-class in all its appointments, and to be in running order in 90 days from commencement of work, and will cost $38,000. It is the intention of the Company to run the mill on custom ore until their own mine is sufficiently developed to give it constant employment. This arrangement will materially assist many of our companies that have small bodies of ore in sight to have it worked and thereby help toward the development of their mines without declaring so many Irish dividends; and the profits of the mill will go toward the development of the Spaulding.

Ground for the new mill was broken on Wednesday morning and to the surprise of all a ledge of fine loaking quartz was unearthed about one foot from the surface and showing a width of at least six feet. This ledge looks very promising and can be traced the entire length of the Spaulding ground, and doubtless to an indefinite length south. This find, where the mill is to be erected is some 300 feet north of the Spaulding hoisting works and in close proximity to the old original shaft. The Spaulding is a sort of a close corporation—but little of the stock being held outside of the original owners. A small portion of the stock was set aside for a working capital, and the sale of it has accomplished the work already done, and to erect this mill without the levying of assessments. They have good hoisting works and an incline shaft 308 feet in depth. Drifts have been run on the 230-level, north 98 feet; south, 50 feet. On the 330-level a drift was run north 65 feet, and crosscutted a distance of 25 feet. In the 230 drifts good ore was encountered which gave good returns by mill process, and some sent to England worked over $100 a ton. The Company have a U. S. Patent to their claim, and it is to be hoped that the little "unpleasantness" existing between the Booker and Spaulding will be amicably arranged, as it is best for both companies that it should be, although there is nothing to interfere with the working of the Spaulding when that Company is ready to resume work; but it is better for near neighbors to be friendly, as, in the case of mining enterprises, the development of one mine enhances the value of the neighboring ones; and if there are any disputes in regard to title, it costs no more to settle them after the property is known to be valuable.

The new mill will be a valuable addition to our milling facilities, as it undoubtedly will have constant employmen. and add greatly to our bullion harvest. The Spaulding is a fine property, and being in close proximity to the Noondays, which will soon be shipping bullion, its outlook is very promising. We trust the new Board of Directors will order work resumed at an early day and push the development of the mine. The Company had its annual meeting on the 11th of October and elected the following officers: President, G. K. Porter; Secretary, John Heine; Superintendent, W. A. Searls; Directors, G. K. Porter, A. F. Bryant, Lewis Schlesinger, M. R. Simons and J. C. Eggers.

MARYLAND CONSOLIDATED.
S. A. McPherson, Sup't.

A depth of 15 feet has been gained in the main shaft since last report. Stringers of porphyry and quartz are coming in and extending across the bottom of the shaft, which makes good breaking ground; loose slips are also encountered, which greatly facilitates sinking. A distance of 45 feet has yet to be run before reaching the 225 foot level. At this point a station will be cut out, and, through the crossent already made from the 250 foot level of the incline, ore will be taken out from the ledges in the north and south drifts.

TIOGA.
C. H. Golding Supt.

Shaft down 650 feet. The rock on east side of shaft is getting softer and and has the appearance of approaching a ledge. Syndicate drift is in 525 feet and in very hard blasting ground. Have 200 feet further to run to make connection with the Tioga tunnel. The east crossent on 620-level advanced 20 feet, the face being in very favorable looking vein matter. The west crosscut on 620-level has advanced 15 feet, and is in good working ground. The winze is being sent down to the 720-level as rapidly as possible.

SOUTH BULWER.
John C. Turner, Sup't.

At work in the north drift from bottom of winze No. 2 in 350 foot level. The ledge is looking well, holding its usual size. The ore is of a fair character and can be milled at a handsome profit. Arrangements are being perfected to put in pumping machinery and larger works.

STANFORD CON.
J. M. Land, Sup't.

Shaft down 300 feet. Have been erecting a building—30x75 feet—and framing works for machinery. The building is about completed. In the shaft the formation is burnt porphyry, with stratas of quartz, very regular and pitching east.

BLACKHAWK.
S. B. Ferguson, Sup't.

This week the shaft has been sunk 8 feet—total 443 feet with no change in formation since last report. The drift east from bottom of winze advanced 2 feet, and the same distance west—a total of 47 feet across. There is no change in the drift.

SOUTH NOONDAY.
John C. Turner, Sup't.

The new shaft has attained a depth of 55 feet and is securely timbered from top to bottom. In the bottom the formation is of a very favorable character, showing seams of clay and quartz.

CALIFORNIA.
S. B. Ferguson, Sup't.

The new shaft has been sunk 9 feet—total of 61 feet. About one quartor of the bottom is in quartz, which looks well.

CRŒSUS.
S. B. Ferguson, Supt

Drift east advanced 8 feet—total 55 feet—east of the shaft. The vein continues about the same in quantity and quality as per last week.

THAT SAFE.—We trust that the Supervisors will order the purchase of a first-class safe for the Treasurer.

NEW LOCATIONS.

The following locations have been recorded by District Recorder George Macartney:

Comet—100x1500 feet—East of the Pioneer and southeast of Bodie Mill—J. Zerman.

Booker Flat—100x1500 on Booker Flat—relocation of the St. Lawrence—O. H. Hill and H M Hartley.

Rainbow—100x1500—adjoining the Triumph mine on the east—John Allen, Thomas Buckley and Ben. Whiteman.

Talisman—100x1500—on east side of Sugar Loaf Hill—Charles C. Bueger and O. Berger.

South Pacific No. 1—100x1500—on west side of Bodie Hill—L. A. Scowden, Wm. Irwin, Jr., A. M. Ellsworth, Patrick Dowd, Wm. Deegan and W. T Haverly.

South Pacific, No. 2—100x1500 adjoining the above, and located by the same parties.

New Foundout—100x1500 feet—West of the Nissan, on Bodie Hill—Thomas Finn and J. C. Wade.

DECIDEDLY RICH.—The Standard is undoubtedly the "boss" gold mine, and its richness may be judged from what a knowing one says of it, that when a mass of ore is thrown down a man can scrape up enough of the loose dust to enable him to get away with $5,000 in his lunch bucket in three days." What a glorious place that big hole in the ground is for a light fingered gentleman to work in!

NEW INCORPORATIONS.—The following new company has been incorporated for Mono county:

The May Lundy Gold Mining Company, to mine in Mono county. Capital, $10,000,000. Trustees, G. W. Butterfield, A. C. Dunn, Charles N. Fox, A. J. Ralston and W. W. Hickles.

THE "CAN CAN."—We call attention to the advertisement of the Can Can Restaurnt now under the control of George Callahan. This is one of the best—if not the very best—fitted up restaurants in Bodie, having a large number of private rooms for families and parties. The lovers of good living will give George a trial.

TO PARENTS.—The following from an exchange, should be read and acted upon by parents having children attending our public schools, and by all taking an interest in educational matters:

"Parents and patrons of schools, please try an experiment. Visit your school at least once a month, and thereby encourage the teacher and pupils by your presence and council, and show them that you are in sympathy with them, and appreciate their labor."

PIONEER MEETING.—The Pacific Coast Pioneers of Bodie will meet at their room on to-morrow (Sunday) afternoon at 2 o'clock. It is to be hoped that every member will be present.

BULLION.—During the month of October the Bodie shipped $87,209 20: Standard, $109,772 62. Total, $196,981 22.

MINER HURT.—On Wednesday morning Murty Rogers was badly hurt in the Bodie mine by a large rock falling upon him.

BOARD OF SUPERVISORS.—The Board will meet in regular session on next Monday.

AN IMPORTANT COMMISSION.—Governor Irwin and Governor-elect Perkins have jointly appointed Hon. Thomas P. Stoney, present County Judge of Napa county, Hon. I. S. Belcher, of Marysville, and Hon. A. C. Freeman, Sacramento, as a Commission to draft such laws and amendments to the codes as in their judgment is necessary to make the system of codes and statutes conform to the requirements of the new Constitution. They will meet at once in Sacramento city and enter upon their duties. These appointments are not made in pursurance of any law, but the present and elected Governors, in view of the fact that the time allowed for the session of the coming Legislature will be too limited within which to originate and consider the proper amendments to be made, deemed it wise to create the Commission above named, leaving it to the Legislature to compensate the members for their labors.—Sacramento *Record*.

Ex Governor Walker, late of Virginia, addressed a large public meeting of his Binghampton N. Y neighbors on Monday last. He told them the Republicans were responsible for the solid South, and if the Republicans would disband there would be no more solid South. He claimed that resumption was the result of Democratic statesmanship.

Forty-thousand dollars were refused on Wednesday for St. Julian, the horse that trotted at Oakland, on Saturday last, before General Grant in the great time of 2:12¼—the fastest on record. On Saturday next he will trot again to try to beat his own time.

On Wednesday all the fire alarm telegraph wires were cut in San Francisco, north of Market street.

Twenty-five hundred emigrants embarked at the close of last month from Genoa for the United States.

The Cabinet at Washington have decided that the War Department shall deal directly with the refractory Utes.

FRIGHTFUL ACCIDENT.—An accident occurred last Sunday night on the tramway running up the mountain to the Mammoth mine which nearly resulted in the loss of life to an estimable young man. About half past 7 o'clock as William J. Parks night foreman in the mine, was descending in the loaded car the wire-cable parted and the car shot down the steep mountain side with almost the velocity of a cannon ball. When near the end of the tramway Parks was hurled from the car on a pile of rocks, while the car came dashing down the mountain till it struck the level dumping place, when it bounded into the air and made a clean jump of forty or fifty feet, landing at the mouth of the lower tunnel. Several men hurried to the spot where Parks lay, expecting only to find a mangled, lifeless corpse, but a feeble moan from the wounded man told them that life was not yet extinct. He was conveyed to his lodgings and a physician immediately summoned. On examination it proved that Parks had sustained a fracture of the left thigh and a fracture of both bones of the right leg below the knee, besides being considerably jarred and bruised. His excellent physical condition and youth, being about twenty-eight years of age, are strongly in favor of his speedy recovery, though his escape from instant death is almost miraculous.—Mammoth City *Herald*.

A marvel of the age. It is impossible to say too much in praise of that good old standard remedy, Emil Frese's Hamburg Tea, and no household should be without it. It prevents, as well as cures, skin diseases, gout, rheumatism, gravel, affected liver, headache, nausea, bile, wind, indigestion, constipation, fevers, sleeplessness, lassitude, foul breath, and every disease brought on or aggravated by a disordered stomach. Once used it is always used. Try it.

RELIGIOUS.—Rev. G. B Hinkle will hold divine services in Odd Fellow's Hall, over Page, Wheaton & Co's store, to morrow at 11 o'clock A. M. and 7 o'clock P. M. Sabbath School at 2 P. M. All are cordially invited to attend.

An Englishman, named Hook, has been engaged all the past Summer in photographing Montana scenery. He has a boat in which to descend the Missouri.

Fourteen Indians have bought a tract of land in Lake county, paying therefor $2,200.

Pearl millet is considered the best of the new forage plants by the farmers of Orange, Los Angeles county.

W H. Jessup has raised a large crop of excellent tobacco on his farm near Haywards, Alameda county.

A. H. Statham of Fresno has raised a remunerative crop of cotton this season.

W. Cerrier of Folsom has a banana tree in his grounds that has attained the hight of 11 feet since last Spring.

Chew Jackson's Best Sweet Navy Tobacco.

CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay loss of manhood, &c, I will send a recipe that will cure you, FREE OF CHARGE This great remedy was discovered by a missionary in South America. Send a self addressed envelope to the Rev. JOSEPH T. INMAN, Station D, New York City.

MARRIAGES.

ROBERTSON—PAGE.—In Mayfield, Oct. 22d Dr. H. D. Robertson, of Bodie, to Frankie E. Page, of the former place.

DEATHS.

McIVOR—In Bodie, October 28th, Neil McIvor, a native of Nova Scotia, aged 36 years.

PARK—In Bodie, October 26th, Almon Park, a native of Illinois, aged 32 years.

LUKEY—In Bodie, October 26th, Lotta, only daughter of Joseph and Juliet Lukey, aged 1 year 3 months and 7 days.

McKENNA—In Bridgeport, Mono county, October 26th, of congestion of the lungs, Barna McKenna, late Superintendent of Highways of Mono county, a native of County Monaghan, Ireland, aged 50 years.

LEWIS—In Grass Valley, October 21st, Wm. F., son of S. G. Lewis, a native of California, aged 19 years.

THE RISDON IRON Locomotive Works

Corner of Beale and Howard Streets, SAN FRANCISCO, CALIFORNIA.

JOSEPH MOORE.....Superintendent

BUILDERS OF STEAM MACHINERY IN all its branches, steamboat, steamship and land

ENGINES AND BOILERS.

High Pressure and Compound.

Ordinary Engines compounded when advisable.

Steam Boilers.—Particular attention given to the quality of the material and workmanship, and none but first-class work produced.

Water Pipe of boiler and sheet iron of any size, made in suitable length for connecting together, or sheets rolled, punched and packed for shipment, ready to be erected on the ground.

Hydraulic Riveting.—Boiler work and waterpipe made by this establishment riveted by hydraulic riveting machinery, that quality of work being far superior to hand work.

Pump—For mining, of any capacity and of any style. Our style of direct acting compound engines, with double line of pumps, are particularly recommended.

Direct Acting Engines for underground work, irrigation, or city water works purposes, built with the celebrated Davey valve motion, superior to any other.

Mining Machinery—Quartz mills, pans, boilers, hoisting machinery, stamping hoisting engines, or other machinery required.

[o19-3mis]

It is now stated that Sitting Bull with his entire following, numbering 6,000 persons, are waiting for the Missouri to freeze over, in order to return to the American side of the border.

Most publishers can heartily join with the Lower Lake *Bulletin* in the wish that all their delinquent subscribers might be seized with a "remittent fever."

Dr. J. H. Glenn of Colusa was in Chico last week. He carried to his ranch an English gentleman, who is looking for a place to settle a colony of 500 families.

The first case of typhus fever ever known in Sacramento occurred last week.

There arrived at Castle Garden, New York, on the 25th, 1,020 immigrants.

THE CHRONICLE.

BODIE, NOVEMBER 1, 1879.

An old Boston merchant says: "Speaking of salaries, the highest one I ever knew paid to a salesman was $30,000 a year. This was paid in war times to a dry goods man, and he used to boast that he and the President of the United States were the only persons in the country receiving so much for their services. I know a man who for years received annually $17,000 for his labors as a salesman. I think it would puzzle him to-day to pay his board regularly. Within a few days I saw a man who received at one time a salary of $10,000. He was well up in his trade, but to-day he is simply a beer drinker."

Selfishness is the mother of sorrow. When one is on the stretch to secure personal aims, he is exposed to failure. When one acts as a guardian for self, he is in perpetual anxiety. Anxious only for the cause, and seeking only to be expended in the best way for its publication, any thrusts made for self are harmless. Thus anxiety for self is a useless burden, which may be cast off Have you this freedom? It is a part of the divine plan. If you have not reached the repose where you can free yourself of any galling cares that may be weighing you down you are missing your privilege.

A sensitive Vermont man has thought it necessary to publish the following card in his country paper: "Some people have the vulgar habit of calling me Bill; that is not my name, nor any part of it. My name is William Palmer. I forgive all past offences; but if any person ever calls me Bill again after the publication of this letter, I shall take it as a downright insult, and just as much of an insult as though he had called me by any other hateful name that is not my own."

Charles the Simple once remarked to his fool, Jean, that he thought they had better change places. As Jean did not look well pleased at the proposal, Charles asked him if he were not content at the idea of being King. "Oh, content enough," was the reply; "but I should be exceedingly ashamed at having such a fool."

A preacher in a suburban town, while instructing a class of urchins in the catechism, told them that God could do everything, whereupon one of them asked: "Can God make a rock so big that he can't lift it?" The boy's question remains unanswered.

Missouri has a factory devoted to the manufacture of corn-cob pipes, and is quite prond of the new industry. Cobs are scarce at one dollar per hundred, and the pipes in great demand.

Josh Billings says: "Cider may be a good temperance drink, but I can manage to get so drunk on it that I kant tell one of the ten commandments from a by-law ov a base-ball klub."

"There are two sides to everything," sighed the man who was on the wrong side of the prison wall.

The small boy doesn't know whether to laugh or be indignant when he sees a goat deface a circus bill.

NOTICE.

TO THE PEOPLE OF BODIE:

You are hereby required and directed to comply with the following orders.

First—That all joints of pipe from stoves up must be rivited.

Second—That any pipe less than fifteen inches from the wall must have zinc or tin between it and the wall.

Third—That ceiling and roof-plates must have a vacant space between pipe and material of 2½ inches.

Fourth—That all pipes must not run nearer than ten inches to ceilings built of wood, paper or cloth.

Fifth—That all stovepipes must pass through the roof-plate at least ten inches, and the top pipe taper joint to go over both the pipe and roof-plate.

Sixth—That all stovepipes must have dampers in them.

Seventh—That all pipes must extend to or above the ridge of the roof and be securely fastened or stayed to the roof.

Eighth—That ashes be not left in wooden vessels or set out doors while hot.

By order of
COMMITTEE OF SAFETY.

LIGHTNING SEWER

THE NEW WILSON
Oscillating Shuttle
SEWING MACHINE

Is wonderful in its conception, unprecedented for doing a large range of sewing in textile fabrics and leather. Its motions are continuous, admitting of an extraordinary rate of speed, either by steam or foot power. Every motion of the treadle makes six stitches, thus producing about one-third more work in a day than other Sewing Machines. It has no stop motions, and tightens the stitch with the needle out of the fabric. It uses the well-known Wilson Compound Feed on both sides of the needle. It has two-thirds less parts than any other first-class Sewing Machine. Its arm is fully eight and one-half inches long and five and one-half inches high, and the whole Machine is very compactly and scientifically constructed in proportions, elegance, design and appearance. Its simple, powerful and perfect mechanism places it as far in advance of all other Sewing Machines as the telephone is superior to the tin speaking tube. The WILSON MENDING ATTACHMENT, for repairing all kinds of textile fabrics WITHOUT PATCHING, furnished FREE with all WILSON SEWING MACHINES, together with a Tucker, Ruffler, Corder, Set of Hemmers, Binder, etc. Prices furnished with freight charges prepaid, and machines furnished on trial to responsible parties, to be used with steam-power, in places where we have no agents. Send for Illustrated Catalogue and Price List, No. 230.

MEDICAL.

TO THE UNFORTUNATE.

Dr. J. F. Gibbons
DISPENSARY,
623 KEARNY ST., corner of Commercial, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet Stricture, Syphilis, in all its forms, Seminal Weakness, Impotency, Night losses by dreams, pimples on the face and lost manhood can positively be cured. The sick and afflicted should not fail to call on him. The doctor has traveled extensively in Europe, and inspected thoroughly the various hospitals there, obtaining a great deal of valuable information, which he is competent to impart to those in need of his services. DR. GIBBONS will make no charge unless he effects a cure. Persons at a distance MAY BE CURED AT HOME. All communications strictly confidential. Y ou see no one but the Doctor. Send ten dollars for a package of medicine. Persons writing to the Doctor will please state the name of the paper they see this advertisement in. Charges reasonable. Call or write. Address DR. J. GIBBONS, Box 1,957, San Francisco. ap12-ly

D. SPINNEY
No. 11 Kearny Street,
SAN FRANCISCO.
Treats all Chronic and Special Diseases.

YOUNG MEN

WHO MAY BE SUFFERING from the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty to sixty who are troubled with the frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient can not account for. On examining the urinary deposits a ropy sediment will often be found and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue again changing to a dark and torpid appearance. There are many men who die of this difficulty ignorant of the cause, which is the second stage of seminal weakness. DR. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

OFFICE HOURS—10 to 4 and 6 to 8. Sunday from 10 to 11 A. M. Consultation free. Thorough examination and advice, $5.
